

Algebra Bingo

Description

This is a get to know you activity that can be done the first day of class. Students are given a half sheet of paper with statements on it. They must introduce themselves to one another and find someone in the room for which each statement is true.

Prep Work

Print and cut Math Bingo Cards. Enough for each student to have one.

Instructions

- **Pre Activity**

None

- **Activity**

Students are given a half sheet of paper with different math or informational statements. The students must find someone else in the room for which the statement is true. They write a persons name next to each statement but can only use any single name once. The first students to fill out the entire card with names wins candy or something.

- **Post Activity**

None

Time Required

10-15 minutes

Alignment

Math 60

This is a great get to know you activity that can help set the tone for students working together.
