

Finding and Interpreting Slope from a Graph Desmos Activity

Description

This lesson uses Desmos to get everyone involved with the class but can also be done without. Students calculate and then interpret the slope of a line from a graph.

Prep Work

Start a session of the activity.

<https://teacher.desmos.com/activitybuilder/custom/5ba712aa84048f0b043c077b>

Instructions

- **Pre Activity**

Have students go to student.desmos.com and create an account or sign in.

- **Activity**

Have each student work through the activity. Be aware some students may get stuck on some screens so move around and answer questions as needed.

- **Post Activity**

Review a few of the screens with the class using the teacher login.

Time Required

20-30 minutes
